## through service and professionalism

At ABM Catering for Leisure Ltd, we pride ourselves in being able to provide a comprehensive service to the catering, leisure and licensed trade; covering design, specification, supply and installation of catering equipment, bar fixtures and contract furniture. This includes our own "in house" workshop producing bespoke furniture and upholstery.

As ABM is still a family owned business established in 1985, we have built an excellent reputation within the catering and leisure industry in South Wales and neighbouring regions. Through our experience and expertise, and in-house resources we are able to create and fully equip any project. This is re-enforced by the partnerships formed with many of Europe's major manufacturers such as Electrolux, Enodis and Hobart.

We have become the supplier of choice for a large number of national builders, local authorities and brewery groups. Amongst our many successful projects and partners we are proud to work along side Wilmot Dixon, Costain, Marston's Brewery and Castleoak Care Partnerships to name just a few....

Since the formation of ABM, we have built a professional reputation for quality and cost effective solutions within the leisure and catering industry. By the integration of all our skills and experience within the kitchen and public area refurbishment, a comprehensive turn-key operation can be offered to both new and existing customers.

Our credibility has been built on respecting family values which we firmly believe we take to the market through principles of fairness, honesty and integrity. This in turn enables us to maintain our loyal and distinguished client base in addition to valued new business.

concept to commission

### from advice to design

With over 100 year's experience, the team at ABM offer professional advice and consultancy on all aspects of the catering and leisure industry. We take pride in the knowledge that we have listened to our customers needs to achieve cost effective solutions to meet their requirements. At ABM we are proud to be one of the largest distributors in South Wales and are able to call upon the resources available from our supply partners. Our in-house design team work closely with architects and designers, producing high quality computer generated drawings to ensure that the results reflect the customer's expectations.

In a time when our world is constantly reminded of environmental issues, ABM are working together with suppliers and local authorities to reduce carbon footprints, and in their effort try and specify products that are environmentally friendly, low polluting and reduced energy consumption.

### delivery to training

Our group employ trained professional delivery teams who take pride in delivering to site on time and in pristine condition ready for our engineers to install. Our gas installers are all qualified to the highest Corgi gas standards which enable them to commission and certificate their work. We are constantly aware of all health and safety issues and comply with all the latest recommendations and local by-laws.

On completion of each project the team provide comprehensive on site training to ensure that the equipment supplied is not only used safely but to its full capabilities.

- Janitorial and Catering chemicals.

# Integration

leading to seamless solutions

Our business, which was first established in 1985, has built an excellent reputation amongst publicans, restaurateurs and catering operations in South Wales and neighbouring regions.

# experience

## public sector

We at ABM are proud to be a nominated OGC/SEG supplier to most local authorities throughout South Wales and the South West. This allows us to procure on behalf of all public sector customers, contract price equipment from OGC listed British and European manufacturers, thus providing public sector purchasing departments with the ability to access multiple items from one source with the piece of mind that they are getting exactly what they require, that being a professionally managed project by experienced individuals.

## healthcare

The health care market is constantly growing. As life expectancy increases, the dependency for care and dementia care continues to grow. At ABM we now have a team who specialise exclusively within this sector to produce catering solutions for all stages of life. From local special needs children's day centres to the building of retirement communities for large corporations such as the Joseph Rowntree Foundation.

## license trade

Working closely with architects and designers, we constantly create innovative individual concepts for major breweries and independent landlords alike. We understand all purchasing decisions are important and can offer friendly professional advice. ABM can offer bar design, bespoke seating, bar machinery and supplies, refurbishing complete projects on time and within budget. We can even offer through our preferred partner, financial advice and assistance.

## dining out

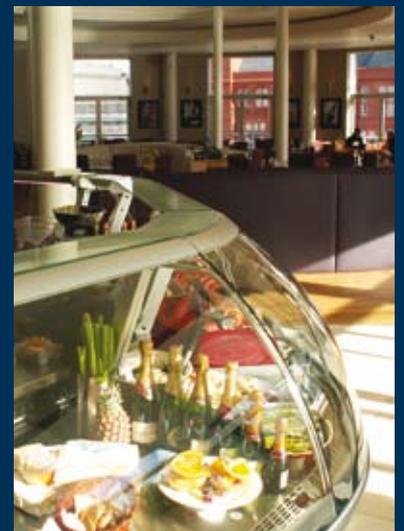

ABM has built up a reputation with restaurateurs providing complete turn key projects for many independent operators. Cardiff is renowned for being a city of culture, especially Cardiff Bay. This area has undergone huge investments and provides a wonderful variety of international cuisines. Many of these businesses appreciate the support and commitment given by ABM on a daily basis. Whether you are trying to create the romantic setting or al-fresco dining, ABM can assist you to realise your dreams.

## leisure

Whether it's the WREX Bar at the Millennium Stadium or a children's indoor play area, ABM has the experience to cater for all aspects of the leisure industry, hence the name ABM Catering for Leisure Ltd. As time goes on, personal free time has become more valuable and recreational needs are subsequently higher. We have been privileged to have been involved in all aspects of this growth from caravan parks to golf clubs and national heritage sites.
