

NETCOM case study

Lancasterian Smartboards

The Requirement:

To provide an interactive learning solution in two nursery classrooms to enhance the virtual learning capabilities of the rooms. The school wanted a neat and tidy solution which was easy for the student and teacher to use.

Lancasterian Primary School contacted Netcom through our website. This project was located in Tottenham, London.

The Solution:

Netcom supplied the school with a Smartboard bundle package for each room. The new Smartboard solutions included a 77" screen with built in projector unit and boom arm. To enhance these Smartboards we also included a set of Smartboard USB speakers.

The solution included the following:

- 2 x Supplied and installed Smartboard 680i packages which included a 77" screen with built in projector and boom arm.
- 2x Supplied and installed Smartboard USB Speaker package
- Local data and power connections
